Think *fast*. Speak *fearless*. Lead *with levity*.

Our mission

Break free from boring English classes

We are *yes and english* — a completely new kind of Business English training in Hamburg that goes far beyond worksheets, grammar rules, and vocabulary lists.

We empower teams, professionals, and leaders to communicate in English with more creativity, courage, agility, and impact — so you can be your brilliant self, even in English.

Built for *impact*, not *worksheets*

No textbook torture. No grammar drills. No tiring Zoom classes. Instead: real, human-to-human language training.

English meets *Mindset*

Yes, AI is everywhere. Yes, the world feels like it's on fast-forward. But here's the secret: the real competitive edge is still people. People who connect, who care, who can improvise when things go sideways.

That's why we're more than an English course — we train the core skills for confident, agile, human communication. Our approach combines language, improvisation techniques, social skills, and a constructive mindset. It shifts perspectives, fosters connection, and builds trust in your own voice. Because what the future really needs isn't perfection — it's courage, presence, meaning, and true teamwork.

Our purpose is to prepare you to thrive in a world that needs bold, empathetic, and agile communicators — in English.

Fun English – Serious Business

We take humor very, very seriously. It's our superpower and the pinnacle of language learning. It builds connection, diffuses tension, unlocks ideas, and opens doors. So we lead with levity. We laugh. We improvise. We make mistakes on purpose. Unpolished. Unscripted. Always uplifting. Expect to be challenged. Expect to laugh. Expect to grow.

Leaders who laugh
are rated 27% more
motivating and their
teams are twice as
likely to solve creative
challenges.

Your *English Upgrade*

We train curious, open-minded individuals who want to dramatically improve their English in professional or personal contexts: well-established teams or a newly formed groups, department-specific or cross-functional, entry-level professionals or senior leaders.

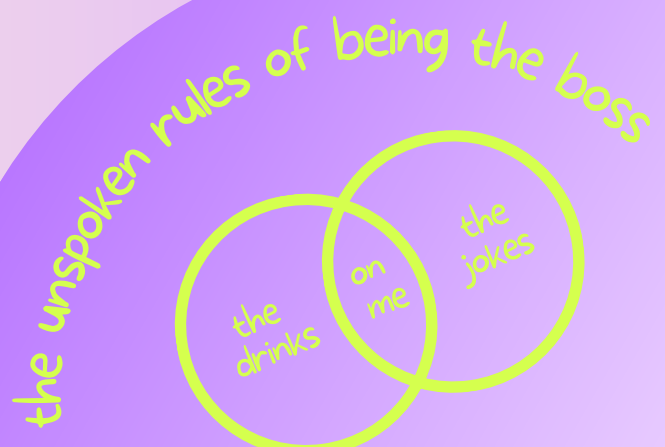

Our program is designed for advanced English learners. You should be reasonably comfortable communicating at a B1 level – meaning you can follow and participate in everyday conversations. Even if your vocabulary is still limited, you should be able to express yourself in familiar situations.

But even more important:

We need courage, openness, and a 100% willingness to learn — with that, success is guaranteed.

Nothing beats real, meaningful, in-person connection. That's why our program is an all-in, all-human antidote to a world gone flat-screen.
